SEASON 1933

BLACK HILLS SPRUCE

Put in a few Evergreens for winter effect.

The Black Hills Spruce is a native of South Dakota, and is therefore hardy enough for the wind-swept bare prairie country of the northwest. It grows readily on all soils and because of its close growing branches and heavy close set foliage it is one of the best spruces for ornamental purposes. Its compact habit of growth lends itself well to win-break purposes and its dark green color, which it retains throughout the winter months, gives you a promise of the spring to come.

Not balled or burlapped, but twice transplanted and packed carefully: 18-24 in. \$1.55 each; 10 for \$14.00. 30-36 in. \$1.75 each; 10 for \$16.00.

Balled and burlapped in earth, twice transplanted. 18-24 in. \$2.50 each; 10 for \$22.75; 30-36 in. \$3.10 each; 10 for \$28.00; 3 to 4 ft each \$3.85; 5 for \$17.50. Not prepaid.

To My Friends and Customers:

We have been supplying your section of the country with the major portion of the garden and flower seeds, field seeds and nursery stock that has been planted. We are the largest distributors of hardy, early maturing adapted seeds and plants in this section of the country. We are interested in making the home surroundings beautiful, the garden useful and the field crops profitable. We will supply you seeds that are adapted to your climatic conditions, full-blooded seeds, full of life and vigor, capable of producing thrifty crops—able to grow and keep growing—able to withstand hardships and adversity, common in the northwest. You will always find prices of the seed surprisingly low. Our location and very wide distribution makes it possible for us to supply them to you at much lower prices than you must pay for seeds, not quite as hardy and early maturing, elsewhere.

More people will grow gardens than ever before. Demand will be heavy. Order now—and be assured of extra quality and yielding ability at our low prices.

Mail the order blank found in the back of the catalog now. We guarantee prompt service and best quality and we save you money.

Terms of Sale and Shipment

Payment: Cash in full with order. Money order, bank draft, check on good bank, or stamps accepted.

Delivery: We pay the postage or express on all Garden and Flower Seeds. All other items are F. O. B. Newell, unless otherwise stated.

Thousands of bushels of seed grain, seed corn, potatoes and flax go out to Wyoming, Montana and North Dakota by trucks at lower prices on account of large orders. Club your orders and ask for our special prices. It will save you money.

Newell is in Butte County, on the northern foothills of the Black Hills, about 30 miles from Montana line. We are on gravelled Highways 212 and 79 and not far from 85. Long distance telephone No. 52.

The Man With a Hoe Can Eat

The nation has swung into gardening on a scale never equaled before. Raise a bigger and better garden with Bober's northern grown, hardiest, earliest maturing and best adapted vegetable seeds. Our liberally filled standard packets of garden seeds of the highest quality and laboratory tested are 5 cents. The larger half pound and pound packages are priced a nickel to ten cents less for each package. The seed is newly tested, it assures you of high germinating, fresh stock. No better seed at any price.

Garden BEANS

That Contribute Liberally to Your Table.

GREAT NORTHERN—The most delicious baking bean in the world. It takes the place of the little Navy bean, is a most wonderful producer, cooks in a very short time, is sweet and tender. Prices: $\frac{1}{4}$ lb. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 10 lbs. \$1.20; 100 lbs. \$7.00; prepaid.

BOBER'S BOUNTIFUL STRINGLESS GREEN POD BEANS

The earliest and one of the very largest green podded bush varieties grown. On account of its great earliness, its handsome, large, straight pods and its exceptionally fine quality it is one of the best to grow for the market or the home garden.

The plant is of thrifty growth, very hardy, and resistant against rust or mildew. Pods are stringless, tender, and flat, they are produced very early in the season and the bushes continue to bear for a long time. It is the first to give pods fit to pick in the spring and the last to yield edible pods in the fall. Of a handsome, rich green color, they are of large size, thick, broad, flat, extra long, very uniform in shape, solid, meaty, brittle and of finest quality. Melting, tender, and having a delicious flavor, exclusively their own, the pods are absolutely stringless in all stages of growth. In addition they are most excellent shelled for winter use. Matures in 42 days. $\frac{1}{4}$ lb. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 5 lbs. \$1.00; 10 lbs. \$1.80; 100 lbs. \$11.00, prepaid. If you live close to town, it will pay you to plant 100 pounds. This bean is a money maker.

IMPROVED GOLDEN WAX—This is the very finest selected strain of the Golden Wax bean, and has for years been our most popular variety. It is especially adapted to this section. The pods are large, fleshy and stringless. The color is a bright golden. A very early sort and highly rust resistant. Plant plenty of these. They will pay. $\frac{1}{4}$ lb. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 5 lbs. \$1.00; 10 lbs. \$1.80, and we pay the postage.

HENDERSON'S BUSH LIMA—Often called "baby lima" because of the small size seeds, which are white and flat. Very productive, and the earliest of the limas. Prices: $\frac{1}{4}$ lb. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 5 lbs. \$1.05.

KENTUCKY WONDER—The best early pole wax bean for northern planting. Meaty and brittle. $\frac{1}{4}$ lb. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 5 lbs. \$1.10.

Bober's Choice Garden PEAS

LITTLE MARVEL—One of the newest and best of the wrinkled peas. It is sweet, productive and of high quality. $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 18c; lb. 25c; 5 lbs. \$1.05; prepaid.

BLISS EVERBEARING—If pods are picked as they mature the vines will continue to branch and bear all season. The best main crop variety. The peas are large, sweet and packed tight in the pod. Prices: $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 18c; lb. 25c; 5 lbs. \$1.05; prepaid.

ALASKA or EARLIEST OF ALL—(52 days to maturity.) A greater acreage of Alaska is planted by canners and gardeners than any other. Produces medium sized bright green peas of excellent quality. Matures its crop at one time. Prices: $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 18c; lb. 25c; 5 lbs. \$1.05; prepaid.

EXTRA EARLY GRADUS—A good early sort, produces large pods of wrinkled peas, and bears throughout the season. Prices: $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 18c; lb. 25c; 5 lbs. \$1.05; prepaid.

PREMIUM GEM—A dwarf type of pea of delicious flavor. It is fine for the home garden. Prices: Pkt. 5c; $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 18c; lb. 25c.

LANTONIAN—One of the finest and most profitable kinds to grow. A dwarf variety and is ready for gathering as early as the Gradus. Has a true marrow fat, delicious flavor. The pods are large,—if anything larger than the Gradus and better filled. Pods and vines are of rich healthy green. Prices: $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 18c; lb. 25c; 5 lbs. \$1.05; prepaid.

WORLD'S RECORD or IMPROVED GRADUS. (My pick.)—One of the earliest of the wrinkled, seeded, large podded varieties. The vines reach a height of 2 feet, produce most abundantly and bear throughout the season. These tender peas have a most delicious flavor and are the market gardener's favorite. Prices: $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 18c; lb. 25c; 5 lbs. \$1.05; prepaid.

DILL Familiar garden plant used in making pickles and for seasoning relishes. Prices: Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c.

SAGE for seasoning and stuffing. Pkt. 10c; oz. 30c.

Bountiful Stringless

Everbearing Peas

Improved Gradus Peas

LETTUCE—The Best Salad Plant

NEW YORK or WONDERFUL—A large variety of fine quality, more largely planted by commercial growers of head lettuce than any other sort. The heads are very solid, of finest quality, with outer leaves a rich dark green. It withstands heat and is one of the best heading sorts for the home garden. Prices: Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. 90c; lb. \$1.75.

N. Y. Wonderful

EARLY CURLED SIMPSON—One of the most popular of all the early curled lettuce. Very tender and of delicate flavor. Prices: Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 70c.

BIG BOSTON—Early, large, bright green heads. A very hardy and vigorous variety and one of the best known. Prices: Pkt. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 85c; lb. \$1.60.

PARSLEY

CHAMPION MOSS CURLED—Leaves finely curled, of a rich dark green. Use for garnishing and seasoning. Prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

SPINACH

NEW ZEALAND—A thrifty variety that will stand hot weather. Continuous sprouting makes it desirable for home use. Prices: Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 55c; lb. \$1.00.

BLOOMSDALE—The earliest and hardiest variety. Crisp, crinkled broad leaved that keep well after cutting. Prices: Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 30c; lb. 50c.

Bober's PUMPKINS Make Best Pies

SMALL SUGAR—Much smaller than the field varieties, rich in sugar, finely grained and sweet. Exceptionally fine pumpkin for pies. It is a very prolific type, producing nice, uniform size and shape pumpkins in abundance. Considered one of the hardiest and easiest to grow. Matures in about 70 days. Pkg. 5c; oz. 10c; ¼ lb. 28c; lb. 75c; postpaid.

JAPANESE PIE—Fine grained, dry and sweet. They ripen early, keep well and are fine for home use. It is one of the easiest pumpkins to grow. A large crook-neck sort with dark green skin mottled with yellow stripes. Matures in about 80 days. Pkg. 5c; oz. 10c; ¼ lb. 28c; ½ lb. 45c; lb. 70c; postpaid.

KING OF THE MAMMOTHS—The giant of pumpkins. Flesh a golden yellow, good quality and excellent for cooking. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 55c; lb. 95c.

Small Sugar

Use SQUASH Baked and Buttered

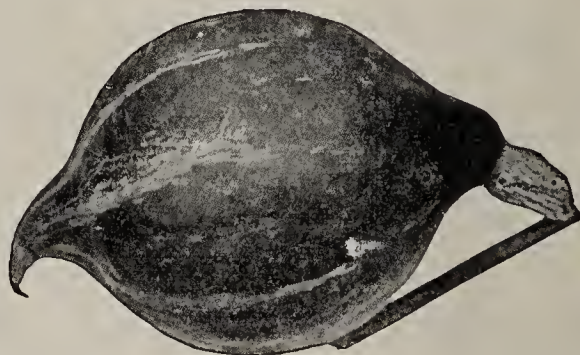

BOBER'S TABLE QUEEN—A small acorn-shaped, dark green squash, almost black, about 4 inches in diameter and 6 inches long. The fruits turn to a golden color as they mature, and can be used either green or ripe. **Vines seem almost insect proof, and the ground is literally covered with the scalloped, rather roundish dark green fruits.** Of superb quality, they make excellent pies and can be cooked whole when young. Is of exceptionally nice flavor, and is just the right size to cut in half and bake. It is a splendid keeper, immensely prolific and is one of the best squashes for the home garden. One of our customers reports 36 of these nice squash from three hills. A fine winter variety. Pkg. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; lb. \$1.40, prepaid.

*"Cut me in half,
Season me well,
Bake and serve me,
In the shell."*

BOBER'S GOLDEN HUBBARD—Fruits typical Hubbard shaped and heavily warted. An excellent variety. Rich golden orange colored. Flesh deep orange, rich and fine flavored. Keeps well and the large vines produce several squashes. One of the surest croppers. Pkg. 5c; oz. 14c; ¼ lb. 35c; lb. \$1.15, prepaid.

BANANA SQUASH—Sweetest of all varieties and excellent for culinary use. Entirely free from fiber and stringiness. Pkt. 5c; oz. 15c; ½ lb. 40c; lb. \$1.50, prepaid.

IMPROVED HUBBARD—The standard winter squash, well known, highly productive variety. Flesh is bright yellow, fine grained and sweet. Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 65c; lb. \$1.15.

Golden Hubbard

CUCUMBERS

IMPROVED WHITE SPINE—One of the earliest of the cucumbers and a heavy producer. Price: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 95c.

IT STAYS GREEN—A good pickling variety for continued picking. Recommended to all who put up their own pickles. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 95c.

CHICAGO PICKLING—Old reliable variety for making small pickles. Especially good for marketing. Heavy producer. Prices: Pkt. 5c; oz. 12c; ¼ lb. 35c; ½ lb. 65c; lb. \$1.15.

Stays Green Cucumber

Plant a good big garden. That's the way to beat the high cost of living.

Short Season WATERMELONS

The greatest satisfaction from planting Bober's watermelon seed is at harvest time.

COLE'S EARLY—One of the earliest and best. Bright striped in two shades of green, with bright red flesh of delicious quality and thin rind. Prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

PEERLESS or ICE CREAM—Very early flesh is bright scarlet and is as sweet as honey. One of the best varieties of the north. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 75c.

BOBER'S KLECKLEY SWEET (My pick)—This is a real quality melon. The flesh is fine grained, tender and sweet. In fact, it is so tender that quite often it will pop open as soon as you stick a knife in it. If you want a better melon than this one you are hard to suit. Medium long or oblong in shape and skin dark green. A good big melon weighing sometimes 40 pounds or even more. I receive more letters from all sections including northern Montana praising this wonderful melon. You will be a booster for it, too. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 80c.

SWEETHEART—A medium early variety producing extremely large melons of excellent quality. The seeds are black and the flesh very fine. It has an extremely "sweet heart" which is the all desirable essential in a melon. The rind is firm, light green, veined with darker shade. Bright red flesh, solid, sweet and free from core (hence its name). Pkt. 5c; oz. 10c; ¼ lb. 26c; ½ lb. 40c; lb. 75c; 2 lbs. \$1.40.

WINTER WATERMELONS—Good in season with other melons and if stored in a cool, dry place will keep until Christmas. White rind, red flesh and black seeds. Prices: Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 65c; lb. \$1.10.

MUSKMELON—Delicious and Appetizing

EXTRA EARLY OSAGE—Earliest salmon fleshed variety. Oval dark green fruit. Ideal for the home garden. Prices: Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 70c; lb. \$1.30.

HONEY DEW—Preferred by most people. Six to eight inches in diameter with a hard white rind and green flesh. Command a high price on the market. Prices: Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 70c; lb. \$1.20.

WALWORTH'S GOLDEN CHAMPLAIN—The best of 34 varieties tried by the originator. High quality golden fruit that matures in 57 days. Two weeks earlier than other varieties. Prices: Pkt. 5c; oz. 15c; ¼ lb. 45c; lb. \$1.40.

EMERALD GEM—Luscious salmon-pink flesh, thick and sweet. An excellent home garden melon. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

HEARTS OF GOLD—Ripens immediately after Golden Champlain. Highest quality. Nearly solid meat, of beautiful salmon flesh. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.40.

SUGAR ROCK—Sometimes called Honey Rock. This new variety is one of the most delicious Melons. It is early and very productive and medium-sized, round, heavily netted Melons with deep, very sweet, orange flesh. Pkt. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 85c.

RADISHES—Fresh, Crisp Radishes a Table Dainty

Plant early using about one ounce of seed to 100 feet of row. Plant often so that you can always have them at their best.

FRENCH BREAKFAST—A half long, crisp, tender, quick growing radish, scarlet with white tip. Very early. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 85c.

ICICLE—The finest of the pure white varieties; very popular. Keep their unusually crisp and tender quality longer than red sorts. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 85c.

BOBER'S SAXA—The earliest attractive, round, bright red radish. The flesh is pure white, crisp and has an agreeable snappy radish flavor. Grown in 20 days after planting. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00.

BEETS

IMPROVED EGYPTIAN—Earliest and best bunching beet. Rounding flat root, bright red flesh, slightly zoned. Prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 42c; lb. 75c; prepaid.

DETROIT DARK RED—The beet that produces the main crop. Very tender and delicious, as well as attractive when canned. Prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 42c; lb. 75c; prepaid.

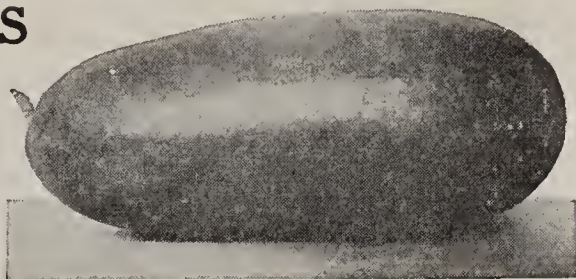

ECLIPSE—A very early variety with round, bright red roots. The flesh is crimson with pinkish white zones, sweet, crisp and tender. Prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 42c; lb. 75c; prepaid.

STOCK BEETS—Increase Milk and Egg Production

GOLDEN TANKARD—Half-Sugar—A good cattle beet noted for its milk producing properties. Grows well above the ground and yields on light soils. Prices: oz. 7c; ¼ lb. 20c; lb. 55c; 5 lbs. \$2.00, prepaid.

MAMMOTH LONG RED—The heaviest cropping and largest of mangels, often yielding 40 tons per acre. Solid, straight, red roots. Prices: Oz. 7c; ¼ lb. 20c; lb. 55c; 5 lbs. \$2.00; prepaid.

SWISS CHARD—Lucullus—To our mind the best vegetable that can be grown for greens. The cut-and-come-again kind. Produces abundance of greens which can be used all summer. Pkt. 5c; oz. 12c; ¼ lb. 25c; ½ lb. 40c.

Bober's Kleckley Sweet

Muskmelon

Radishes

Egyptian Beet

8 lbs. of stock beet seed produces 10 to 30 tons of roots per acre, depending on season. It will pay you to try an acre.

Danvers Carrot

Use CARROTS for Health

OXHEART—Very thick, short, medium sized carrot. Plant this variety for early use, pulling the tender half-grown roots which you will find very sweet and mild. A favorite on dry land. Prices: Pkt. 5c; oz. 10c; ¼ lb. 28c; ½ lb. 45c; 1 lb. 85c; prepaid.

DANVERS HALF LONG—A large carrot of fine quality, deep orange in color, with close textured flesh and small core. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 85c; prepaid.

CHANTENAY—Excellent, medium early, half long, stump rooted variety. Roots are smooth with orange red flesh of finest quality. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 90c; prepaid.

IMPROVED LONG ORANGE—An old standard sort, desirable for either field or garden use. Medium early, tremendous yielder; roots penetrate deeply so that plant gets moisture even in very dry weather, an important feature in the northwest. Roots about 12 inches long and 3 inches in diameter, flesh bright orange, smooth, sweet and fine-grained. A very good keeper. Prices: Pkt. 5c; oz. 10; ¼ lb. 25c; ½ lb. 45c.

PARSNIPS for Winter and Early Spring

IMPROVED GUERNSEY—Thick heavy roots with fine grained flesh of sweet quality. Prices: Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 65c; prepaid.

LONG SMOOTH or HOLLOW CROWN—Large roots that are tender and sweet. A great producer and one of the very best varieties. Prices: Pkt. 5c; oz. 10c; ¼ lb. 20; ½ lb. 35c; 1 lb. 65c; prepaid.

Long Smooth Parsnip

RUTABAGA

IMPROVED AMERICAN—Large globular roots with small tap root. Solid, tender, yellow flesh that is sweet and firm. Prices: Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 65c; prepaid.

WHITE SWEET RUSSIAN—One of the sweetest and best of white Rutabagas. Oz. 10c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 70c; prepaid.

PEANUTS

EARLY NORTHERN—Earliest and best for the North. The pods are small, well filled and prolific. They will produce a crop in any ordinary season in any county where corn will ripen. ¼ lb. 12c; ½ lb. 20c; 1 lb. 30c, postpaid. 5 lbs. \$1.00.

TURNIPS

EXTRA EARLY PURPLE TOP—The earliest in cultivation. Medium sized roots, with purple tops. Prices: Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 65c; prepaid.

EXTRA EARLY WHITE MILAN—Creamy white roots of medium size, flat and uniform. Flesh is fine grained, tender and sweet. Prices: Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 65c.

SALSIFY or VEGETABLE OYSTER

SANDWICH ISLAND—An improved type, double the size of the old variety. Long roots of excellent quality and delicate flavor. Makes real tasty soup. Prices: Pkt. 5c; oz. 20c; ¼ lb. 70c; ½ lb. \$1.25.

SUNFLOWER SEED—Mammoth big Russian, valuable poultry feed and for windbreak. Prices: Pkt. 5c; 1 lb. 20c; 10 lbs. \$1.50.

CAULIFLOWER

Start early in house or hot bed.

DANISH DRY WEATHER—Produces solid pure white. Especially adapted for growing in dry sections where nearly all other varieties fail to make good heads. Pkt. 10c; ¼ oz. 40c; oz. \$1.10.

EGGPLANT

EXTRA EARLY DWARF—This is the very earliest Eggplant grown. The fruit is perhaps even more delicious than the larger sorts, and it is altogether an exceedingly satisfactory sort for our section. Pkt. 10c; oz. 50c; ¼ lb. \$1.75, postpaid.

Adapted CABBAGE Varieties

Golden Acre Cabbage

DANISH BALLHEAD—One of the hardiest drought resistant cabbages; crisp, tender and sweet. Heads weigh very heavy. Prices: Pkt. 10c; oz. 20c; ¼ lb. 70c; ½ lb. \$1.30; 1 lb. \$2.40; postpaid.

BOBER'S GOLDEN ACRE—Earliest of all. A new early cabbage with a round hard head. Copenhagen type, but 10 days earlier. Because of its earliness and high quality it commands a higher price than other round head cabbage. Prices: Pkt. 10c; oz. 25c; ¼ lb. 80c; ½ lb. \$1.55; 1 lb. \$2.90.

COPENHAGEN MARKET—A well known, excellent, early variety that is a money maker for the market grower and one of the best for the home garden. A sure header, round, solid, with few outer leaves. Stems short, heads large—may be set closer together in the rows than the old sort. Prices: Pkt. 10c; oz. 20c; ¼ lb. 70c; 1 lb. \$2.40.

Our Early Corn won first in yield in tests conducted by U. S. Dept. of Agriculture in competition with 20 other varieties in two tests on dry land in Meade County.

SWEET CORN—Bober's Golden Sunrise a Money Maker

GOLDEN SUNRISE—A new delicious golden sweet corn with the Golden Bantam flavor and two whole weeks earlier, it even beats the "Sunshine" by 3 days. It took 15 years to develop this sensational early corn. Remember its three big points: Large size, rich, buttery and delicious flavor, extremely early. You will have the first sweet corn for market and table in your neighborhood. It will make you good money. Sam recommends this variety. Prices: ¼ lb. 10c; ½ lb. 15c; 1 lb. 25c; 5 lbs. \$1.00; 10 lbs. \$1.75; postpaid to your address.

Golden Sunrise Corn

Bober's Purdue Bantam

GOLDEN BANTAM, BLACK HILLS SELECTION—A good quality sweet corn, rich, creamy yellow, sweet and tender. Prices: ¼ lb. 10c; ½ lb. 15c; 1 lb. 20c; 5 lbs. 70c; 10 lbs. \$1.20; postpaid.

STOWELL'S EVERGREEN—The standard main crop. Excels other late sorts in sweetness and productivity. Prices: ¼ lb. 10c; ½ lb. 15c; 1 lb. 20c; 5 lbs. 85c; 10 lbs. \$1.50.

SUNSHINE—Golden eared hybrid, originated by Prof. Yeager of North Dakota. It is 10 days earlier than Golden Bantam and much larger. A variety that should be in every garden. Prices: ¼ lb. 10c; ½ lb. 15c; 1 lb. 25c; 5 lbs. \$1.00; 10 lbs. \$1.75; postpaid.

BOBER'S GOLDEN GEM SWEET CORN—A new introduction, two weeks earlier than Golden Bantam. Stalk very dwarf; ear 8 rowed, sweet and same size as Golden Bantam. Prices: ¼ lb. 15c; 1 lb. 35c; 5 lbs. \$1.25; 10 lbs. \$2.25; postpaid.

PURDUE BANTAM—The newest, sweetest tasting selection of Golden Bantam sweet corn and disease resistant. We paid the U. S. Dept. of Agriculture \$5.00 per pound for the original seed last spring and are now offering our Black Hills grown seed of this outstanding variety for 40c per pound prepaid; 10 pounds for \$3.00.

SHORT SEASON POP CORN

JAPANESE HULLESS—Of wonderful quality for popping; sells at a premium over all other sorts. Prices: Pkt. 5c; ¼ lb. 10c; ½ lb. 15c; 1 lb. 20c.

WHITE RICE—Pearly white kernels resemble rice. Be sure to get the northern selection with which we can furnish you. Prices: Pkt. 5c; ¼ lb. 10c; ½ lb. 15c; 1 lb. 20c.

An ONION a Day Keeps the Doctor Away

SOUTHPORT RED GLOBE—One of the finest types and a popular kind. This strain will ripen surely and keep well. A showy market onion. Prices: Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 90c; 1 lb. \$1.60.

MOUNTAIN DANVERS—An early yellow onion that is a good market variety. It ripens up solid without any "thick necks" or "doubles," and keeps well. It has a good bright color. Because of its earliness it is fine for sections where the seasons are short or anywhere an early onion is needed. Prices: Pkt. 10c; oz. 20c; ¼ lb. 50c; 1 lb. \$1.55. A winner in this section.

WELSH WINTER—The best perennial onion for your garden that will produce an abundance of the earliest green onions. Prices: Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. \$1.00.

PRIZE TAKER—Sweet Spanish type, large yellow onion. Grows to immense size. Prices: Pkt. 10c; oz. 20c; ¼ lb. 60c; ½ lb. \$1.00; 1 lb. \$1.65.

RIVERSIDE SWEET SPANISH—Nearly globular in form, resembling Prizetaker, but considerably larger, the skin is golden yellow in color and the flesh white and very mild. Especially prized for its mildness and delicacy of flavor, this is one of the largest and finest of onions. Pkt. 10c; oz. 25c; ¼ lb. 75c; ½ lb. \$1.35; 1 lb. \$2.50.

Danvers Yellow Globe

Pepper

BELL or BULL NOSE—A standard early variety, popular for pickling; fruits, pendant, scarlet, two inches in diameter, three inches long, mild. Pkt. 5c; oz. 25c; ¼ lb. 80c; prepaid.

PIMIENTO—A real sweet pepper. Excellent for salads or canning. Round, pointed, very thick fleshed and so mild many enjoy eating them from the hand. Pkt. 5c; oz. 22c; ¼ lb. 95c.

Experienced gardeners recognize the value of good clean seed, well kept in the high, dry altitude. Our seeds have an enviable reputation for germination and vigor, assuring even stand and bigger yield of better types.

SHORT SEASON TOMATOES

Produce your own plants, by ordering our Tomato, Cabbage, Cauli-
flower, Egg Plants and Pepper seeds for early planting indoors in
boxes or outdoors in hotbeds.

Earliana

BREAK O'DAY—The newest sensation—an
extra early strain of Marglobe—diseases re-
sistant also. Earlier than Bonny Best. True
globe-shape and of same fine quality and
color as Marglobe. A great Tomato for early
market—developed by the Department of Ag-
riculture. Seed very scarce. **Pkt. 10c; ½ oz.**
25c; oz. 40c; ¼ lb. \$1.25, prepaid.

EARLIANA—The earliest of all tomatoes.
Fruit round, smooth, red flesh and very meaty.
Ripens over long season. Medium size toma-
toes in clusters, plants very productive.
Prices: Pkt. 5c; oz. 30c; ¼ lb. \$1.10.

RED HEAD—A deep blood red tomato that
does not crack open easily and it is practically
resistant to blight. **Prices: Pkt. 10c; oz. 40c;**
¼ lb. \$1.35.

Yellow Pear

BONNY BEST—Fruits ripen evenly, and are of superior solidity
and interior color than many varieties. Smooth, round. **Prices: Pkt.**
10c; oz. 30c; ¼ lb. \$1.00.

JOHN BAER—An early bright red tomato, ripens evenly up to the
stem. Does not scald, blight or crack. A fine tomato for this section.
Pkt. 10c; ½ oz. 20c; oz. 30c; ¼ lb. \$1.00.

YELLOW PLUM—Resembles a plum in size and shape. Of good flavor and especially de-
sirable for preserving. **Prices: Pkt. 10c; oz. 45c.**

YELLOW PEAR—Small pear shaped fruit of delicate flesh and flavor. Excellent for pick-
ling and preserving. **Prices: Pkt. 10c; oz. 40c.**

GROUND CHERRY or HUSK TOMATO—Unequalled for canning, preserving, or making pies.
Bushy vines yield immense crops. **Prices: Pkt. 10c; ½ oz. 30c.**

VEGETABLE PLANTS

Plants are perishable, especially tomato plants which frequently dry out in inland post
offices. We cannot guarantee safe delivery of these plants except to town people who call
for them promptly.

BERMUDA ONION PLANTS

Can be planted April 1st to August 1st. Keep these in a dry place
until planted. It does not hurt tops of these onion bulbs to dry out.
The mildest and sweetest of all onions. Large yields of delicious
Bermudas, that will bring you good returns for your investment.
Bermudas are in great demand and you should get in on the ground
floor to get your share of the profits. Buy our strain and insure
yourself for the best chance for success with Bermudas. **Prices:**
200, 45c; 500, 80c; 1,000, \$1.25, prepaid. Not prepaid, crate of 6,000
plants, \$4.50, weight per crate, 35 lbs.

ONION SETS

These sets very quickly produce the tasty
green onion, which is the first green vegetable
to reach the table. If the seed is allowed to
remain in the ground it produces the big onion
which reaches the market six to eight weeks
before the big onion which is grown from seed.

Onion Sets

GARLIC—Whole, sound, white blubs for seed or pickling. ½ lb., 20c; 1b., 35c, postpaid.

No garden is complete without onion plants or onion sets.

Best Yielding WHEAT Varieties

CERES—The New Wonder Spring Wheat—Drought resistance and resistance to rust, both qualities possessed by this new variety, which yields two to five bushels more per acre than any other bread wheat. It is also 3 to 5 days earlier maturing than Marquis. Thirty-acre field yielded average of 35 bu. per acre.

MINDUM and KUBANKA—The most rust resisting, drouth resisting and highest yielding selections of Durum wheat. 1932 record yield 43 bushels per acre.

RUBY—The High Protein Wheat—About a week earlier than Marquis. It is a bald wheat of fine milling quality, with nice hard red berry, and straw of medium height. The great value of Ruby lies in its earliness, which enables it to escape drouth and rust. Prices for all varieties of wheat, re-cleaned and sacked. 1 bushel, 85c; 5 bushels, \$3.75; 10 bushels, \$7.00. Write for special prices in larger lots.

The Best Ever FLAX

I can supply you highest grade **Certified Bison** flax seed, wilt and rust resistant and highest yielder among all flax varieties awarded 1st prize at the State Fair and State Crop Improvement Show. Prices: 1 bu., \$1.75; 5 bu. at \$1.65; 10 bu. at \$1.50. Buda Wilt Resistant flax: 1 bu., \$1.65; 5 bu. at \$1.50; 10 bu. at \$1.40. N. D. No. 114 Wilt Resistant flax: 1 bu., \$1.55; 5 bu. at \$1.45; 10 bu. at \$1.35. Bags FREE.

BARLEY

PEDIGREED TREBI BARLEY—This heaviest yielding, largest grain variety is adapted to better land or low land along river or creek bottom. It will produce more pounds of grain per acre than any other crop. Try a few acres and be convinced. Price: 1 bu., 60c; 2 bu. at 55c; 10 bu. at 45c. This Trebi barley made a record yield of 100 bushels per acre in Butte County.

VELVET—The smooth bearded barley. Not a scratch in a carload. Fine for stock feeding. 1 bu., 60c; 2 bu. at 55c; 10 bu. at 45c bu.

Flax

NEW IMPROVED BLACK HILLS WHITE HULLESS AND BEARLESS BARLEY

Has neither beards no hulls, extremely early, making it very valuable for hog and poultry feed. Better and richer for feed purposes than any other barley. Normally producing two times the yield of the best wheat. Price: \$1.50 per 100 lbs.

Dwarf Essex Rape

Sow 6 to 10 lbs. per acre.

Very popular for hog and sheep pastures. Keeps growing out as it is eaten off and is not easily damaged by frost. Lb., 30c, postpaid. 10 lbs., \$1.00; 50 lbs., \$4.00; 100 lbs., \$7.00, not prepaid.

No Wild Oats Here

I can supply you with the new Gopher Oats, No. 674. This is a white seeded early maturing oat, having stiff straw and open panicles, of good weight. This is **certified pure Gopher oats free from any wild oats or other weeds**. Rush your order for real seed oats. Prices: bu., 45c; 6 bu. at 40c; 12 bu. at 35c. Bags included free.

Record for Gopher Oats, 135 bushels per acre on dry land.

New White Gold Potatoes

The earliest white potato grown. Introduced year before last. Earlier than Bliss Triumph, Irish Cobbler or Early Ohio. A big yielder and the most promising early variety of the present time. Due to 1932 unfavorable hot weather the seed is not as smooth as normally. Seed stock is limited. Order at once. 1 bu., \$1.30; 2 bu. for \$2.50; 5 bu. for \$6.00.

Early Bliss Triumph Potatoes, \$1.00 bu. straight.

Gopher No. 674 Oats

Sam Bober's flax seed made a record of 20 bushels per acre in Butte County

A Grain Crop in 60 Days

Do you know Proso or Hershey?

It's a new crop, a feed grain that gives promise of revolutionizing agriculture in the western plains and it may encroach upon the Corn Belt. It is one of the most versatile crops in the country because it can be used for hay, as a grain for milk, beef, pork, egg and mutton production and as a cash crop.

For Poultry

For chickens there is no grain grown that will produce more eggs. Chicks thrive on it, as it is used by chick feed mixers and shipped all over the United States. For fattening turkeys it is better than corn or other grain. Every farmer raising turkeys should seed several acres near home and let the turkeys harvest this, and you will find that they will stay around home.

879 Bushels in Four Hours

The yield of Proso or Hershey varies with the soil, or season. We had yields of 70 bushels of Proso grain millet per acre which is above average and due to favorable conditions. It beat wheat, oats and barley. Weight of Proso is 60 pounds per bushel. John Keffeler of Meade County, S. D., reported threshing 879 bushels of Proso grain millet in four hours and this from a late planting.

"Sam himself behind a bundle of Proso grown on his farm."

Prize Winners

For five years in succession we were awarded first prize at the South Dakota State Crop Improvement Show for Prof. Hansen's Siberian Proso which beat all other varieties. We also won first every year at the State Fair.

Planting

Plant 20 pounds per acre any time from May 1st to Aug. 1st with a grain drill, and harvest same way you do grain. A windrower is used to advantage when a combine is used for harvest. Planting 30 pounds per acre has produced three tons of tender hay per acre.

Proso may be planted where crop is destroyed by frost, early hail, to clean out wild oats and to smother quack grass or other noxious weeds. It is planted by many in the stubble after wheat, barley or oats are harvested and helps raise a second crop of hay or grain on the same land in one season.

LOW PRICES for highest yielding varieties. Prof. Hansen's Siberian White or Turghai Red Proso: 10 lbs., 80c; 25 lbs., \$1.25; 50 lbs., \$1.75; 100 lbs., \$3.00; 500 lbs., \$13.80, including shipping bags.

HAY MILLETS

KURSK SIBERIAN—A very fine variety of Millet, also hailing from Russia. Unusually early, extremely hardy and withstands drouth. The plant shows a remarkable stooling habit, as many as 30 to 40 stalks frequently grown from one seed. Use 25 to 30 pounds to the acre. **Prices:** 50 lbs., \$1.75; 100 lbs., \$3.00.

WHITE WONDER MILLET—The White Wonder has come to be recognized as one of the very best hay millets for the Northwest. It is drouth resistant with heavy foliage and broad leaves, producing an im-

mense amount of excellent fodder. Its growth is very vigorous and it is one of the very heaviest yielding varieties. Due to its rapid growth it is a fine crop for smothering weeds on foul land. **Prices:** 50 lbs., \$1.50; 100 lbs., \$2.75.

GERMAN MILLET—A wonderful producer of hay and exceedingly valuable as a food for dairy cattle. Like other millets it has a very low water requirement and is an excellent dry land crop. **Prices:** 50 lbs., \$1.50; 100 lbs., \$2.75.

Cane

EARLY BLACK AMBER FODDER—This earliest of all fodder cane is becoming more in demand every year. Whereas we formerly handled a few thousand pounds, we now move carlots. It is particularly adapted to the Northwest, and succeeds unusually well. Sow broadcast at the rate of 25 to 40 pounds per acre. **Prices:** 10 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$3.00.

Sudan Grass

Sow 12 to 20 lbs. per acre.

Perhaps the heaviest yielding of our annual hay crops. May be cut several times and furnishes excellent pasture for all livestock. Not injurious to any animal. **Prices:** 10 lbs., \$1.00; 50 lbs., \$2.00; 100 lbs., \$3.50; 500 lbs. for \$15.00.

Flower Seeds for Northwest Farms and Homes

Northern Grown

WE PAY POSTAGE ON FLOWER SEEDS

Every seed order should include a generous list of FLOWER SEEDS, ROOTS and BULBS. Time spent in your flower beds is well spent. If you have a natural love of flowers, encourage it. If you have no such impulse, develop it. Flowers are God's message to us of love and good cheer. They will erase the lines of care from your face and arrest the march of gray in your hair.

Black Hills Special

Bober's Black Hills Early Maturing Corn Ripens

Ability to mature on your farm is a most important factor to consider. Corn for fodder or grain must ripen to make feed of the highest quality. We specialize in acclimated, adapted corn of the best yielding ability for this section.

Payne's White Dent—the Record Breaker

My Payne's White Dent made a record of 91 bushels of corn to the acre on 10 acres dry land for Jas. McNeil, St. Onge, S. D., in a 10-acre contest. Weighed and measured by government men. J. C. Milne, near Vale, S. D., made another record of 90 bushels per acre. This is not just talk but actual recorded yields. It will produce the most ripe corn per acre. Try at least a bushel of this wonderful early maturing corn.

Bober's Minnesota 13 Yellow Dent

Matures in 90 to 100 days, grows from 6 to 8 feet high. The ears carry from 14 to 16 rows of kernels and average 7 to 9 inches long. Kernels are fairly dark yellow of medium depth. Minnesota 13 is used by many of our best farmers on low land mainly for silage purpose.

Bober's Gehu Seventy-Day Yellow Corn

The best known of the native early flints. Its feeding qualities are the highest of any variety of corn. It is leafy and produces a tremendous amount of excellent fodder. Since it does not make a large, heavy stalk every part of the plant is utilized in feeding.

Falconer Semi-Dent Yellow Corn

The Highest Yields on Dry Land

One of the highest yielding and early maturing. More like flint, color somewhat uneven. Will grow and develop in cold weather when other corn stands still.

SWEET CLOVER

Selected—Recleaned—Scarified—Tested

Sweet Clover Puts Into the Ground What Other Crops Take Out

Unsurpassed for pasturing. White sweet clover, \$6.00 per 100 lbs. Yellow blossom sweet clover, \$6.25 per 100 lbs. Dwarf white sweet clover, \$6.50 per 100 lbs.

KAFFIR CORN

Makes excellent fodder, either green or cured. Stalks grow 4 to 5 feet high, are very leafy and relished by all live stock. Grown for seed, yields 35 to 50 bushels per acre. Sow in rows 3 feet apart, 5 to 8 pounds to the acre. Grown for fodder broadcast 25 pounds to the acre. Prices: 10 lbs., 80c; 50 lbs., \$2.00; 100 lbs., \$3.50.

Adaptability and quality considered of main importance the U. S. Indian Service again awarded its 1932 contract for a carload of 34,000 pounds of early maturing Seed Corn, Seed Beans, Proso and Hay Millet Seed to Sam H. Bober for supply to the Cheyenne Indian Reservation farmers.

Sam Bober's Corn Beats Them All

In an impartial test conducted by the State College on high and dry gumbo soil, Sam Bober's Falconer corn, Payne's White Dent, Black Hills Special yellow dent and Gehu flint made the best yields, yielding as high as four times as much as some of the other varieties in the same test.

Payne's White Dent

Black Hills Special

Highest yielding Yellow Dent

This corn made a record of 84 bushels per acre in Butte County. It made the second highest yield for dent varieties, being second to Payne's White in the test conducted by the State College on dry land in Meade County. This is an early selection of a locally bred and improved yellow dent and is the highest yielder of all the yellow dents. This variety is rapidly gaining favor because of its sure cropping of high yields. Shells well and is an excellent feeding corn.

Alta Yellow Dent

A new pedigreed yellow dent corn. Ripens in 90 days. A medium size yellow corn for the short season country. Have grown this corn for five years and it is fully adapted.

Blue Flour and Squaw Corn

Raised originally by the Indians and gradually improved and selected by us. Drought resisting, leafy and heavy yielding. These two varieties are early and excellent for hogging off.

RAINBOW FLINT—For silage, \$2.35 bu.

Bayer Dust for Seed Corn—\$1.50 per pound. Will treat seed corn for 35 acres. Good cheap insurance against unfavorable weather and disease resistance.

SOY BEANS

ILLINI—This bean is especially popular with the men who have combines. The reasons are as follows: (1) It stands up the best of all varieties. (2) The bean matures 7 days earlier than Manchu, and is usually threshed before the fall rains. (3) They do not shatter. (4) The yield is the greatest, as high as 37 bushels per acre. Excellent for hay and silage. 10 lbs., 80c; 50 lbs., \$2.25; 100 lbs., \$4.00.

BROME GRASS

This makes a good crop for pasture especially, and will do for hay although it is not of the best quality for the latter. Unequalled for hardiness and sturdiness. Will grow on most any soil and do well. Sow 7 to 15 pounds per acre for best results. Prices: 15 lbs., \$3.00; 50 lbs., \$8.60; 100 lbs., \$15.00.

WINTER RYE

For Fall seeding. New Wisconsin No. 5 pedigreed Rye, produces a white flour. Write for prices.

Prize Products of Western South Dakota.

Prices for all Varieties of
Seed Corn:

Per Bushel, \$1.85
5 Bushels for \$7.80

Plant in 1933. Keep optimistic improving your home grounds; many trees and shrubs must be replaced from the effects of the dry years. Build a future Garden of Eden here. Looking with longing eyes at distant hills breeds discontent, but building and planting around the house means happiness and contentment.

GUARANTEE ON NURSERY STOCK

We will supply you only the best of the respective varieties in trees and shrubs adapted to this short season, dry land section.

We guarantee our stock to be strictly first quality, graded by the highest standards known to the nursery trade. We guarantee it to be in healthy dormant condition at the time of delivery. Any stock that does not come up to this guarantee will be replaced without charge upon immediate notification thereof. No adjustments after July 1.

Prof. Hansen's Most Famous Plums for Quickest Returns in Fruit Waneta Plum

The Giant of Hardy Plums. Up to two inches in diameter. Highly flavored. Richly colored red skin. Considered by many the best and most popular of the Hansen Hybrid Plums and the champion plum of the northwest.

Opata

Opata Cherry-Plum

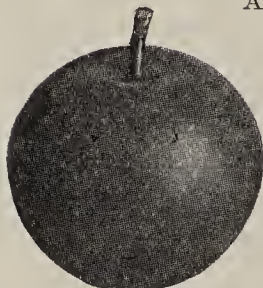

Earliest of all plums and famous everywhere for its rich, wonderfully delicious flavor. The flesh is a light green color with a purplish red skin. Very productive. Hardy throughout the northwest prairies.

Sapa Cherry-Plum

Early, large, productive and hardy. Its intense black purplish flesh is extra fine eating and wonderful for preserves and jam. Bears the year after planting. A sure annual producer and a favorite everywhere.

Waneta

Hanska

Hanska Plum

The superb plum of apricot flavor and fragrance. Very hardy and productive. Many claim it makes the best jam of any of the Hansen Plums. Highly colored and firm flesh.

KAGA—Fruit and tree similar to the Hanska except tree tends to bear a little younger and branches are perhaps a little finer.

Sapa

EARLY RICHMOND—The earliest of the sour pie cherries. Fruit dark red, medium in size. Tree vigorous and bears young. Does best on upland or sandy soil which is well drained.

Oka Cherry

Not really a cherry but is a good substitute for a cherry. It is a sand cherry hybrid, a seedling of Champa. Color brighter than Sapa and a black red flesh.

Tom Thumb

Another production of Professor Hansen and one which is meeting with unusual favor in Canada. It is a **cherry growing on a bush**, and may be planted like currants and gooseberries. Begins to bear the second year and produces tremendous crops of cherries about the size of Compass but black in color and with **dark red flesh** like the Sapa.

ADAPTED EARLY MATURING APPLES

Three Year Anoka Tree
Bearing a Crop of Fruit

PROF. HANSEN'S ANOKA APPLE—The Wonder Apple, as it usually bears the second year after planting! Very hardy everywhere. Good eating and a heavy producer.

WEALTHY APPLE—The most popular of all early fall apples. Large, bright red, very sweet and fine.

YELLOW TRANSPARENT—Early variety, ripening to a yellow in August. Good eating, being tender and juicy when ripe. Markets well. Trees upright in growth.

DUCHESS—Old standard hardy summer variety. Large apple streaked with red. Ripens the first of September.

RED BIRD or CRIMSON BEAUTY—Early apple of bright red color and very attractive. Good quality and flavor and fine for market purposes. Originated in Canada.

MCINTOSH RED—Fruit medium to small in size, beautiful crimson. High quality for marketing and home use. Keeps until mid-winter or later.

DOLGO CRAB—Originated at South Dakota Experiment Station. Tree hardy, vigorous, upright grower. Fruit medium to small, rich in flavor, bright red color. Fine for pickling or jelly.

WHITNEY CRAB—August to September. A hardy, thrifty, upright grower. The fruit is very large and glossy green, striped with red. The flesh is firm, juicy and pleasant. It is a very heavy yielder and highly prized for cider.

Fruit Trees can be grown anywhere on dry land if you space them properly.

We do not recommend planting trees over 5 ft. size as they are not easily established in this semi-arid country.

In All Its Springtime Glory

Special Assorted Apple and Plum Orchard

Mixed orchards of apple or plum trees bear better than if a single variety of apple or plum were planted. An alternate planting of both is better still, as the apples are longer lived and when the plums are ready to be taken out the apples are planted about the proper distance for large trees. The assortments we offer here are made up from a selection of varieties of plums and apples we consider adapted to your section.

12 Assorted Plum Trees, Large Size, \$5.50

12 Assorted Apple Trees, Large Size, \$5.50

25 Assorted Plum and Apple or Crab Trees, Large Size, \$10.00

HARDY PEARS

MENDEL PEAR—Grown without winter protection—a Minnesota product—medium size—sweet and juicy—golden yellow color.

TAIT PEAR—Originated in Canada—perfectly hardy—a good fruiter and of fine quality.

Price, your choice of varieties: 3-4 ft. 60c each, 3 trees \$1.50; 4-5 ft. 75c each, 3 trees \$1.90. We guarantee safe arrival and ship when weather conditions permit.

All Nursery Stock F. O. B. Newell, S. D.

Our nursery stock is adapted to this short season country, and we charge you **HALF PRICE** compared to outside agents' prices.

STRAWBERRIES

The Very Latest and Best

Grand Champion Strawberries

We are pricing strawberry plants this year only at pre-paid prices. All orders for them will be shipped by themselves as we cannot usually start shipping till near May first and the plants are liable to damage if packed in with other goods.

GRAND CHAMPION—Introducing the very latest in ever-bearing strawberries. Bigger, more uniform and sweeter than the Mastodon. Originated in the Bitter Root Valley in Montana. The hardiest and best strawberry for this section. It's a prize winner. Order early. Produces wonderful crops in a few months after plants are set, and is sure to revolutionize the strawberry industry with this grand variety. **25 plants, \$1.00; 50 plants, \$1.50; 100 plants, \$2.50; 300 plants, \$6.00.**

Improved strain of Mastodon strawberries at same prices as the Grand Champion.

BLACK HILLS WONDER—A new June bearing sort originated in the Black Hills. This is an extremely large, high quality, crimson berry which ripens two weeks later than Sen. Dunlap. This plant is hardy, thrifty, producing runners two feet long between plants. Produces largest berry. **Prices: 25 plants \$1.25; 50 plants for \$2.25; 100 plants for \$4.00.**

Other popular and well known one crop varieties: Sen. Dunlap, Gibson, Premier, Red Gold and New Washington strawberries, **25 plants 35c; 50 plants 65c; 100 plants for \$1.15; 300 plants for \$3.00.**

You don't have to be an expert to grow Grand Champion Strawberries. Our free book with each order tells you how.

Beta Grape

Considered the hardiest of the grapes for the northwest. Not of the best flavor but a great improvement over the native wild, and makes fine jams and jellies and tasty grape juice. **Prices: Each 20c; 5 for 75c; 10 for \$1.40; 25 for \$3.00.**

Raspberry Plants

LATHAM—Minnesota No. 1. The best of the red commercial varieties of raspberries. The fruit is very large, of good flavor.

OHTA—The best of Dr. Hansen's raspberries. Red fruit of good quality. Usually bears abundantly the first year planted. **Prices: 10 plants, \$1.00; 25 plants, \$1.75; 100 plants, \$4.00.**

Carrie Gooseberry

Best of all varieties because of its hardiness, productiveness and fine flavor. Its thornless branches make it a pleasure to pick the fruit.

PRICES: Per Plant 25c; 10 Plants \$2.00; 25 Plants \$4.50.

Perfection Currants

Perfection Currants

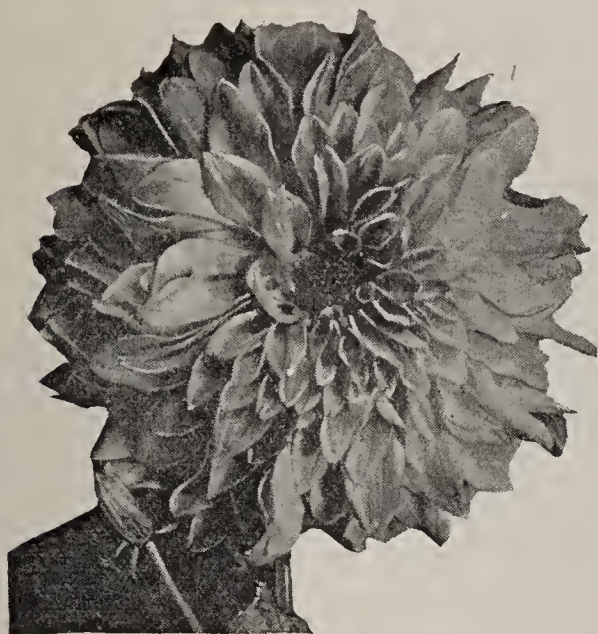

The very best for the prairie. Heavy producers, strong and vigorous plants. It produces double the crop and the size of the ordinary varieties. **Prices: Per plant, 40c; 5 for \$1.20; 10 for \$2.10; 25 for \$4.75.**

Asparagus Plants

WASHINGTON RUST PROOF—One of the earliest sorts. Purple tipped variety that is considered resistant to rust. Heavy yielder of large stocks. **2 year plants, 25 plants, 75c; \$2.50 per 100.**

Victoria Rhubarb

One of the best and largest of the seeded varieties. A heavy bearer, tender and juicy. **Large roots, \$1.00 dozen.**

Dahlia

Bober's Drought Resistant Dahlias

Beautiful, short season, dry land flower. Dahlias are very easy to grow, require but little care and are very productive of beautiful flowers. They are planted like potatoes and grow easier.

The best choice sorts which produce large, fine displays of beautiful flowers of many colors and shades. **Prices: 12 Choice Assorted Tubers \$1.50; 25 Choice Assorted Tubers \$2.50. Packed and Delivered FREE.**

Lilacs

The beautiful early flowering shrub of delightful fragrance. **Prices: Common Purple, White or Persian, 50c each; 5 for \$2.00.**

RED SNOWBERRY—A very hardy shrub that succeeds anywhere. Coral red berries in autumn and winter. **2 to 3 feet 65c each; 18 to 24 inches each.**

POPLAR, RUSSIAN AND GOLDEN WILLOWS

Tall swift growing. Excellent for quick windbreaks.

Size	Each	10	25	100
3-4 ft.	\$0.25	\$1.00	\$2.00	\$ 5.00
4-5 ft.	.30	1.50	2.50	7.50
5-6 ft.	.40	2.00	3.50	12.00

TARTARIAN BUSH HONEYSUCKLE

The upright or bush form of the Honeysuckle and noted for the great profusion and fragrance of its flowers. Growing from 8 to 12 feet high, these tall growing shrubs are extremely suitable for shrubby clusters and for individual planting purposes, especially in exposed locations, as they are the last word in hardiness. For hedges they are unsurpassable, being very ornamental in a trained hedge and will stand clipping to any desired shape or form. **Mixed colors, 2 to 3 ft. each 30c; 10, \$2.80; 50, \$12; 100, \$22. PREPAID.**

Large select specimen plants for lawn plantings, 65c each; 3 for \$1.80; 6 for \$3.20.

Glorious Gladiolus

One of the prettiest and easiest to grow of all the summer flowers. Our assortments are made up of only the choicest standard varieties and will produce a wonderful array of many beautiful flowers.

EXTRA SPECIAL ASSORTMENT OF LARGE BULBS

Contains 8 to 12 of our best Varieties.

12 Bulbs, postpaid to you, \$0.50; 25 Bulbs, postpaid to you, \$1.00.

SPECIAL LARGE SIZE ASSORTMENT

Contains 50 to 75 of Our Best Varieties

Selected for a continuous blooming period that will be sure to please you with many large and brilliant flowers. **100 Choice Large Blooming Size Bulbs Only \$3.00. Packed and Delivered FREE.**

Gladioli

Peonies are Permanent Flowers

The peony is hardier, easier to grow and as beautiful as the rose.

The superb flower of beauty which gives a radiant joy of glorious color to the garden or lawn. Pink, red and white. **3 Assorted Peonies 90c; 6 Assorted Peonies \$1.50; 12 Assorted Peonies \$2.60; Packed and Delivered FREE.**

Peonies

Spirea Van Houttei

Well known to all and an ornamental of indispensable use. Hardy everywhere. **Large, 75c each; 3 for \$2.00; Medium, 50c each; 3 for \$1.25.**

Englemanni Ivy

The hardiest of the climbing vines. Clings by means of sudopads to a sheer wall without the aid of lattice work. **Each 50c; 3 for \$1.25.**

CARAGANA or SIBERIAN PEA TREE

The most popular of all the Russian and Siberian importations. Valuable alike for trimmed hedge, shelter belt or ornamental shrub and one of the very hardiest plants in existence. Foliage resembles that of the locust, and a dainty yellow pea-like flower covers the plant in late May or June. **Size, 9 to 15 inches, per 10, 65c; per 25, \$1.25; per 100, \$3.50. 18 to 24 inches, per 10, 75c; per 25, \$1.75; per 100, \$5.00.**

RUSSIAN OLIVE—The hardiest of the Russian importations. It has small yellow flowers produced abundantly, replaced later by small silvery-white, olive-shaped fruits. When trimmed it makes a beautiful ornamental and when cut back forms a most effective hedge. **18 to 24 inches, each, 10c; 10 for 80c; 50, \$3.00; 100, \$5.00.**

Plant a few Peonies and Dahlias—a good investment for beauty and pleasure.

Snowball

produced from ground to tip, in large pyramidal clusters of 30 to 40. Each 85c; 3 for \$2.25.

SNOWBALL—*Viburnum Opulus Sterilis*

An old favorite the country over. Requires a favorable location and plenty of moisture. When conditions are favorable it is unsurpassed among the early blooming shrubs. The last of May or in the first week or two of June it becomes almost completely covered with dense round white flower clusters. 2 to 3 ft. size, each, 55c; 5 for \$2.50 Prepaid.

CLIMBING and RAMBLER ROSES

Prepaid Prices

CLIMBING AMERICAN BEAUTY—(My pick.) Rich carmine; fragrant; early bloomer. Plants heavy two-year-old No. 1 stock. Each 85c; 3 for \$2.25.

DOROTHY PERKINS—Clear shell pink with flowers borne in clusters; full and double. One of the finest of all climbing roses. Each 85c; 3 for \$2.25.

CRIMSON RAMBLER—The famous crimson-cluster climber, so extremely effective when grown on pillars and trellises. Flowers are

Climbing American Beauty Roses

HARDY HEDGE ROSES

Nothing is more beautiful in hedges than a rose hedge. And nothing can be hardier than these Hardy Siberian Hedge Roses. A wonderful flowering hedge which blooms all summer long from June till it freezes. The flowers are fragrant, large and beautiful beyond words.

With a hedge of these around your lawn you will have a flowering border of beauty to frame your place which will be a continual joy and everlasting pleasure throughout the years to come. Prices for Large, Stocky, Bushy Plants: Each 40c; 5 for \$1.85; 10 for \$3.00; 25 for \$6.50.

CHINESE ELM

GRACEFUL as the Cut Leaf Birch, RAPID GROWING as the Poplar, BEAUTIFUL as the best American Elm. THE GREATEST CONTRIBUTION in recent years to the horticulture of the northwest.

Chinese Elm

Why the Chinese Elm Is the Most Talked of Tree in the West Today

1. The Chinese Elm is a tree of rare beauty. It has heavy, dark green foliage of the elm type with delicate fine twigs. It combines the beauty of the best elms with the gracefulness of the cut leaf birch.
2. It resists drought and cold, thrives on poor soil and makes a fine showing in spite of neglect.
3. It is a tree of rapid growth—growing as rapidly as the soft maple or cottonwood. It is not uncommon for a 2 ft. seedling in the nursery row to become a 10 ft. tree in two seasons.
4. It holds its foliage until late in the fall—adding three or four weeks to the year's growing season.
5. The Chinese Elm is a real contribution from the Orient to the Occident and promises to take its place as one of the most popular shade and street trees of America.

CAUTION: Do not plant on low, wet land, but plant on higher ground. Do not force growth late in the season, but permit tree to ripen early.

Trial order 10 trees 4 ft. high, \$4.00; 10 trees 5 ft. high, \$5.00. American Elm trees 5 ft. size, 40c each. 3 to 4 ft size, not transplanted, 20c each.

CISTENA—Hansen's Purple Leaved Plum. A very hardy variety with rich purple red foliage. 3 to 4 feet, 80c each, 3 for \$2.00. 2 to 3 feet, 50c each, 3 for \$1.25.

From Wyoming rancher: "You can count on my business regularly from now on. I have had my lesson with unadapted seed and nursery stock. Sam Bober's Seed and Fruit Trees are the best and the cheapest."

ALFALFA SEED

Our Black Hills 1932 Alfalfa Seed Crop was only one-fifth of normal, the shortest in the history of this section. We advise you to buy early—there will not be enough hardy seed to go around. It will not pay you to use non-hardy seed from milder weather sections at any prices.

Prices for best grade Extra No. 1 alfalfa seed, 99.7 per cent purity, including bags: Prof. Hansen's Siberian Cossack, in addition to being hardy, it produces the finest hay on account of its finer stems, **\$21.00 per 100 lbs.** Hardy Grimm Alfalfa seed, best yielding selection, **\$20.00 per 100 lbs.** Dakota No. 12, better than ordinary northwestern common, at **\$17.00 per 100 lbs.** No. 1 grade of above seed, 99 per cent purity, at **\$1 less per 100 lbs.** Smaller seed from above three varieties 98 per cent purity free from foul weeds at **\$12.00 per 100 lbs.**

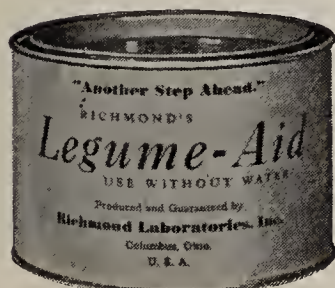

Ten Reasons Why You Should Plant Prof. Hansen's Siberian Cossack Alfalfa: 1. It is the hardiest alfalfa known; 2. A better soil builder than other alfalfa; 3. More drought resistant; 4. Will make a big crop of hay in a dry season when others fail; 5. Has a double root system, both branched and deep; 6. Makes fine quality hay; 7. Will yield more hay per acre no matter what weather conditions are; 8. Freezing does not kill young plants, neither does it kill or injure the growing hay; 9. Requires less seed per acre than other varieties; 10. Hogs do not kill it out in pastures.

ADD 80c PER 100 LBS. ALFALFA SEED and we will inoculate the seed for you before shipment with Legume Aid, so it will be ready to plant and get a good start for you.

Alfalfa Screenings

Broadcast by hand early in the spring 10 lbs. of this per acre in your pastures and it will start enough alfalfa plants to increase the pasturing capacity 25 to 50 per cent per acre. **Price: \$2.25 per 100 lbs., including bags.**

Alfalfa and Sweet Clover Inoculation

Legume-Aid USE WITHOUT WATER

Living bacteria in a moist charcoal base which adheres to dry seed without the use of water.

SPILL IT over dry seed . . . mix . . . IT STICKS and HANGS ON. IT IS EASY TO USE . . .

It is not necessary to sow LEGUME-AID treated seed immediately. **1 bu. size 60c; 2½ bu. size \$1.20 prepaid.**

Former President and Mrs. Coolidge inspecting a dryland alfalfa field while on vacation here in 1927. Sam Bober's Hardy Grimm Alfalfa Seed is planted on Coolidge's farm in Vermont.

SPECIAL OFFER

Alfalfa seed will be inoculated
FREE of charge on all orders received
before February 15th.

NEW WAY TO KILL GARDEN BUGS

PROTECT your flowers and vegetables this new way. Surprisingly easy! Simply sprinkle with a new kind of non-poisonous powder called PLANTGARD. Not only are bugs, worms and insects killed, but this almost magical powder also fertilizes the ground. No wonder flowers grow larger and brighter colored! Vegetables mature quicker and are more tasty. Yet it costs only a few cents to protect an entire garden bed. Ask for Plantgard today.

Plantgard
FOR GARDEN PROTECTION

10 oz. carton with sifter top 30c postpaid. 5 lb. container with specially constructed puffer in each package, \$1.10 prepaid.

Frank Holtry, of Bison, S. Dak., reports that the sprinkling of a path of Plantgard around the garden turned the Army Worms away, preventing a threatened destruction of all vegetables.

SAM H. BOBER

Grower and Distributor

Black Hills Hardy Seeds and Plants

NEWELL, SO. DAKOTA

A Fine Lawn in 30 Days

You will be surprised to watch this special 30-Day Lawn Grass pop out of the ground and produce a fine velvety lawn in four to five weeks under favorable conditions. Not for 20 years have we been able to offer such exceptional values in Lawn Grass, and now is the time to re-vamp the lawn—patch up the bare spots, or re-seed entirely.

Don't fail to order "30-Day Lawn Grass" early and sow it as soon as the snow melts away in early spring. Sow 1 lb. to 250 square feet and you will have a well established lawn by early summer. This mixture contains only the very best quality Blue Grass, Red Top Grass, White Dutch Clover, and other quick growing grasses.

Although experts can measure the vitality and purity of a seed, the most powerful microscope does not permit them to measure the most vital factor—ITS INHERITANCE.

HERITAGE is carried in the blood line of the germ. It controls the yield, hardiness, early maturity, drought resistance, adaptability, resistance to disease—all factors essential to the production of a crop.

Gardening is the Fashion This Year
